

Christian Evidences
Course Syllabus
Zach Breitenbach, MA, MBA, PhD

Course Description: This course introduces students to Christian apologetics, preparing them to provide a reasoned defense of the Christian faith by exploring philosophical, historical, and scientific evidence for the truth of Christianity.

Course objectives:

- Define Christian apologetics and understand why it is biblical and important.
- Understand the relationship between Christianity and science.
- Learn arguments for the existence of God.
- Articulate the historical evidence for the resurrection of Jesus.
- Respond to the problem of evil, a common objection to belief in God.
- Apply apologetics in everyday conversations.
- Grow in your own faith and become more confident to share your faith.

Lecture Series:

- Lesson One: Intro to Christian Apologetics and Truth; the Importance of God's Existence
- Lesson Two: Science & Christianity; Evidence for a Creator of the Universe
- Lesson Three: Evidence of Intelligent Design (Fine-Tuning and DNA)
